With the funds herein appropriated, it is the intention of the Legislature that it shall be the agency's responsibility to make certain that funds required to be appropriated for "Personal

Services" for Fiscal Year 2012 do not exceed Fiscal Year 2011 funds appropriated for that purpose, unless programs or positions are added to the agency's Fiscal Year 2011 budget by the Mississippi Legislature. Based on data provided by the Legislative Budget Office, the State Personnel Board shall determine and publish the projected annual cost to fully fund all appropriated positions in compliance with the provisions of this act. It shall be the responsibility of the agency head to insure that no single personnel action increases this projected annual cost and/or the Fiscal Year 2011 appropriations for "Personal Services" when annualized, with the exception of escalated funds. If, at the time the agency takes any action to change "Personal Services," the State Personnel Board determines that the agency has taken an action which would cause the agency to exceed this projected annual cost or the Fiscal Year 2011 "Personal Services" appropriated level, when annualized, then only those actions which reduce the projected annual cost and/or the appropriation requirement will be processed by the State Personnel Board until such time as the requirements of this provision are met.

Unless otherwise authorized in this act, no state agency shall take any action to promote or otherwise award salary increases through reallocation, reclassification, realignment, educational benchmark, career ladder, equity salary adjustment, or any other means to increase salaries of employees or positions unless specifically exempted by the following conditions: the award of teacher salary increments; the advancement of a trainee/cadet to the next level of a bona fide career ladder; the award of an educational benchmark for the attainment of a Certified Public Accountant License or higher level professional certification based on information provided to the State Personnel Board by the Legislative Budget Office; the immediate replacement of a departing employee with an employee from within state service at a salary level of the departing employee or the Fiscal Year

2011 promotional formula, whichever is less; the emergency appointment of nurses, pharmacists or other health care and child protection professionals at a salary to be determined by the State Personnel Board; or a new hire associated with the American Recovery and Reinvestment Act of 2009. All positions supported by funds available through the American Recovery and Reinvestment Act of 2009 shall be designated as time-limited positions.

Any transfers or escalations shall be made in accordance with the terms, conditions and procedures established by law or allowable under the terms set forth within this act. The State Personnel Board shall not escalate positions without written approval from the Department of Finance and Administration. The Department of Finance and Administration shall not provide written approval to escalate any funds for salaries and/or positions without proof of availability of new or additional funds above the appropriated level.

No general funds authorized to be expended herein shall be used to replace federal funds and/or other special funds which are being used for salaries authorized under the provisions of this act and which are withdrawn and no longer available.

**SECTION 3.** In addition to all other funds heretofore appropriated, the following sum is hereby appropriated out of any money in the State Treasury to the credit of the Wireless Communication Commission for the fiscal year beginning July 1, 2010, and ending June 30, 2011 ..... \$ 50,000,000.00.

Of the funds appropriated under the provisions of this act, not more than the following amount shall be expended for Salaries, Wages and Fringe Benefits ..... \$ 1,109,313.00.

The commission is hereby authorized to escalate federal funds and other funds in accordance with rules and regulations of the Department of Finance and Administration and up to a maximum of six (6) additional positions for a total of ten (10) positions, in order to provide services prescribed by Section 25-53-171, Mississippi Code of 1972.

**SECTION 4.** The Mississippi Department of Information Technology Services is hereby authorized to receive additional funds from any state agency or other source, including one hundred percent (100%) general-fund agencies, for the purpose of providing data processing or telecommunications services to any governmental organization contracting with the Mississippi Department of Information Technology Services for such services. The Mississippi Department of Information Technology Services is further authorized to escalate an amount not to exceed Two Million Five Hundred Thousand Dollars (\$2,500,000.00) and to increase, up to a maximum of twenty (20) additional positions, the number of authorized positions listed in this act in order to provide the required data processing or telecommunications services for such governmental organizations, under the rules and regulations of the Department of Finance and Administration.

**SECTION 5.** It is the intent of the Legislature that the rates charged by this agency for services provided to the State must be consistent with the federal cost allocation guidelines outlined in the OMB Circular A-87, which provides that rates may recover the allowable cost of providing the given service but not over recover.

**SECTION 6.** It is the intention of the Legislature that the Department of Information Technology Services shall maintain

complete accounting and personnel records related to the expenditure of all funds appropriated under the provisions of this act and that such records shall be in the same format and level of details as maintained for Fiscal Year 2010. It is further the intention of the Legislature that the budget request for Fiscal Year 2012 shall be submitted to the Joint Legislative Budget Committee in a format and level of detail comparable to the format and level of detail provided during the Fiscal Year 2011 budget request process.

**SECTION 7.** It is the intention of the Legislature that whenever two (2) or more bids are received by this agency for the purchase of commodities or equipment, and whenever all things stated in such received bids are equal with respect to price, quality and service, the Mississippi Industries for the Blind shall be given preference. A similar preference shall be given to the Mississippi Industries for the Blind whenever purchases are made without competitive bids.

**SECTION 8.** It is legislative intent to ensure beneficial information reaches as many Mississippians as possible. Further, it is legislative intent that the expenditure of public funds for this purpose be accomplished in an efficient and effective manner.

Therefore, state agencies as standard procedure, will observe the following criteria:

(a) Develop goals and desired results for a campaign.

(b) Evaluate effectiveness through respected advertising standards, including market reach and cost effectiveness.

(c) Seek public service announcements, which would be aired by media without cost.

(d) Itemize and justify professional assistance and related expenses for creative and production costs outside of the actual media expenditures.

(e) Utilize Mississippi-owned media companies when feasible.

**SECTION 9.** It is the intention of the Legislature that the agency shall compile cell phone usage records of any cellular phone (wireless communication device) that is assigned, issued or made available to any officer or employee in accordance with Section 25-53-191, Mississippi Code of 1972, and these records shall be made publicly available at the expense of the agency.

**SECTION 10.** It is the intention of the Legislature that this agency shall have the authority to receive, budget and expend funds from any source that may become available to them as a result of the passage of the American Recovery and Reinvestment Act of 2009 in accordance with the rules and regulations of the Department of Finance and Administration in a manner consistent with the escalation of federal funds.

The Executive Director of the Department of Finance and Administration shall have the authority to approve escalations of funds and employee positions using funds from any source available due to the passage of the American Recovery and Reinvestment Act of 2009.

The Executive Director of the Department of Finance and Administration shall immediately send notice of the approval of such budget escalation to the House of Representatives Appropriations Committee, the Senate Appropriations Committee and the Legislative Budget Office. Within fifteen (15) days of such approval, the Executive Director of the Department of Finance and Administration shall ensure that the Legislative Budget Office receives detailed and accurate information about the amount and use of federal and special source funds by state agencies as a result of the passage of the American Recovery and Reinvestment Act of 2009.

**SECTION 11.** Of the funds provided within this act, no former employee who is receiving State of Mississippi retirement benefits

shall be hired under contract for an amount exceeding Twenty Thousand Dollars (\$20,000.00) a year without prior approval by an agency's proper governing board or authority. Upon approval of such contracts a written report shall be submitted detailing the cost and need of contract services to the Chairmen and members of the Senate and House Appropriation Committees.

**SECTION 12.** The money herein appropriated shall be paid by the State Treasurer out of any money in the State Treasury to the credit of the proper fund or funds as set forth in this act, upon warrants issued by the State Fiscal Officer; and the State Fiscal Officer shall issue his warrants upon requisitions signed by the proper person, officer or officers, in the manner provided by law.
